Fall 1939 Price List of

Superior Glads

ANNOUNCEMENT

Since the issuance of our 1939 catalogue, we have moved from Brownsville, Oregon to Lebanon, Oregon and future correspondence may be addressed to us at the new location. Our business is to be carried on in much the same manner as before but on our new place we expect to be able to give more attention to a wider variety of flowers and keep them under closer observation than was possible before with the plantings located in several different places. We wish to thank our many customers for their patronage in the past and to extend an invitation to go through our lists before making future selections.

Due to circumstances beyond our control, we did not issue a summer price list of Iris and Daffodils as usual but we expect to have these for sale again next year. In passing it might be mentioned that we have a very fine selection of the finest novelty Daffodils and those interested are invited to write for our list for next year. However, at the present moment we are more concerned with Glads as are doubtless most of you who read this.

We are indeed grateful for the many fine reports sent in and we are glad to hear of the successes of our customers. On the other hand, if you have met with failures and we are to blame or we can be of service in correcting them, we wish to be at your service.

TERMS

Prices quoted in the list prepaid except on "quantity prices." Stock is preferably shipped in the spring unless orders are for quantities which may go by express. If we can get bulbs dug, cured, and cleaned in sufficient time, some orders may go out this fall, particularly those from the Western States. One bulb may be purchased at one-eighth the ten rate price and five at the ten rate, and 25 at the 100 rate where the item does not total less than 10c. Where bulbs are priced singly, ten may be ordered at eight times the unit price.

EXTRA SPECIAL DISCOUNTS

We need cash to harvest our crop and pay for our new bulb house, and to encourage early orders we make the following special discounts. These do away with the cash discount coupons sent out previous seasons. On all orders accompanied by cash to the full amount of the order, 25% may be deducted if sent before Nov. 1st.

20% may be deducted if sent before Dec. 1st.

15% may be deducted if sent before Jan. 1st.

Collections and lots selected from the quantity price list may be included for these discounts if the order totals \$5.00 or more. On orders of \$25.00 or over, an additional 5% discount may be deducted.

We endeavor to send out healthy, true-to-name stock and are glad to make adjustments should any prove otherwise.

GRANT E. MITSCH

"Gladland"

Lebanon, Oregon, U. S. A.

COMMENTS ON NEW VARIETIES

Since last spring's catalogue was sent out, we have bloomed a number of new Glads and several that we had before have given us more pleasure and satisfaction than before. While our seedling patch bloomed early and the blooms were not, perhaps, better than usual, the season has, taking everything into consideration, given us the most good bloom that we have had for several seasons.

First of all we shall mention the whites inasmuch as it seems that a number of worthy additions have come to us in this class recently. While not so pure a white as some of the others, Matterhorn was perhaps the most outstanding in our garden this year. Snowprincess is more creamy in tone and may be a bit more refined for cut flower use even though it has the size and other qualifications for the exhibition table. Vredenberg appeared the best of the real whites. For a dependable performer Success looks very promising. Edelweiss looked good and may prove the best for exhibition. Snow White is one of the cleanest in color being one of the first to have no red dots deep in the throat. Myrna is a nice ruffled creamy white and should prove a fine commercial. In Crystal we have a huge exhibition variety which is sometimes lightly flushed with pink as it grows here. Ivory Keys, described by its name, is one of the best in its color.

Blues, a former specialty here, do not seem to have advanced so rapidly recently as a few years ago. Of course, we are rather partial to Bluet with its white throat. Atlas is a good deep violet reminiscent of the older Aida, and Allegro remains perhaps the best light blue. At this writing, not all the yellows have bloomed but Royal Gold, a medium yellow was extra fine this year and Jasmine ushers in a new departure in this color, a light shade without trace of red dots in the throat.

The other colors will be lumped together here as but few of each class will be mentioned. Similar in some respects to Amador but somewhat taller, perhaps, is Admiral. Aladdin, by its huge striking spikes has made itself quite widely known already. It is a real beauty in rich coral rose with white throat. One of the most beautiful light rose pinks I have grown is Capeheart. An outstanding new variety described by its name is Coral Glow (Ellis). Pinks with white throats are getting to be quite common but Flora Farmer seems one of the most worthy additions and in lighter tones, Carillon is beautiful. Greta Garbo in light buff pink tones looks promising. One of the finest put out by Pfitzer is his recent pink variety, Pfitzer's Masterpiece. This was very fine this year. Regenbogen appears to be another of his best commercials with its long spikes of buff salmon flowers. Pruitt's Valeria in rose red and Leona in red purple are good new cut flower varieties. It would take much space to describe all the good ones but this is a summary of a few of the better ones. Our own introductions have been quite good this season but descriptions of these may be found in our spring catalogue.
